## Statistics for rail freight transport in the 1st half of 2016

11.08.2016

---

Monthly statistics including data for June 2016 have been published.

The weight of transported cargo fell in June 2016 in comparison to June 2015 by 0,4%, which is the lowest decrease this year. Meanwhile, transport performance grew by 1,2% and operating performance by 0,4%.

Taking the whole first half of 2016 into consideration, the weight of transported cargo fell by 2,25%, while transport and operating performance decreased slightly by less than 0,5%. This confirms the trend of effectuating transports on longer distances.

You will find data on freight transport [here](#).
